## TEACHING CREDENTIAL PREPARATION

### Career Pathway

The State of California provides for a two-step, five-year program leading to the Professional Clear Teaching Credential. A student may complete the requirements for a Preliminary Clear Credential within an approved professional preparation program including student teaching and may be employed at that point, providing all requirements have been met (except the fifth year). Within five years, the student must complete an approved Professional Teacher Induction Program through an approved school district, county office of education, college or university, consortium or private school. At that point, an application for a Professional Clear Teaching Credential is submitted through the approved sponsoring Induction Program. For more information, log on to the California Commission on Teaching Credentialing website at [www.ctc.ca.gov](http://www.ctc.ca.gov) and the TEACH California website [www.teachcalifornia.org](http://www.teachcalifornia.org).

#### **SINGLE SUBJECT TEACHING CREDENTIAL**

(Primarily for Middle and Secondary Schools)

This credential authorizes public school teaching in specific subjects in a departmentalized classroom such as those in most middle schools or high schools. Teaching in these subjects may be authorized for preschool, kindergarten, grades 1-5, and classes organized primarily for adults.

Future secondary teachers must demonstrate competency in their discipline by either completing a subject preparation program approved by the California Commission with a combination of community college and undergraduate university courses or passing the designated California Subject Examination for Teachers (CSET). See a counselor or [www.assist.org](http://www.assist.org) for course requirement information.

#### **MULTIPLE-SUBJECT TEACHING CREDENTIAL**

(Liberal Studies/Elementary School Teaching)

This credential authorizes teaching in a public school self-contained classroom such as the classrooms in most elementary schools. However teaching preschool, kindergarten, grades 1-12, and classes organized primarily for adults may also be assigned.

Completion of the courses recommended below will partially satisfy requirements for the Liberal Studies Elementary School Teaching option offered at the indicated CSU's and UCR. The courses are part of a curriculum that can be started at a community college and completed at the CSU or UCR. The entire curriculum is designed for individuals who seek the pre-professional subject matter preparation for elementary school teaching consistent with the standards established by the California Commission on Teacher Credentialing.

According to California law, any major can be selected to partially satisfy elementary school teacher preparation requirements. A Liberal Studies major however, is recommended because it provides the best preparation for future elementary school teachers. At most universities, the Liberal Studies major incorporates professional and subject matter content included in the California Teaching Standards for elementary school instructions.

## Career Pathway

With the enactment of the No Child Left Behind federal regulations, school districts are requiring a passing score on the California Subject Examination for Teachers (CSET) for all new teachers. It is recommended that students take the CSET after transfer, per the advice of university department or credential advisors. The CSET is administered by the National Evaluation System, Inc. It is a five-hour test consisting of three separate subtests, each containing both multiple-choice and essay questions. Subtest I measures knowledge in reading, language and literature, history and social science; Subtest II covers science and mathematics; and Subtest III includes physical education, human development, visual and performing arts. Once a subtest has been passed, it does not have to be taken again, as long as the score is used toward certification within five years of the testing date. For further information, visit the CSET website at [www.cset.nesinc.com](http://www.cset.nesinc.com).

Students who wish to choose an academic major other than Liberal Studies in order to prepare for elementary school teaching should schedule an appointment with a counselor.

Students who choose a Liberal Studies major in order to benefit from a broad interdisciplinary liberal arts education and do not wish to pursue elementary school teaching should see a Cerritos College counselor for advisement. Requirements may vary from those listed below.

An Associate in Arts Degree in Liberal Studies is not available at Cerritos College.

### CBEST

It is recommended that students seeking a teaching credential take the CBEST (California Basic Educational Skills Test) the semester **before** transferring to a university. The CBEST is an entrance requirement for most university credential programs. The CBEST verifies proficiency in reading, mathematics, and writing. Passing the CBEST is a requirement for obtaining a teaching credential issued by the California Commission on Teacher Credentialing and is required prior to student teaching. For test information, log on to [www.cbest.nesinc.com](http://www.cbest.nesinc.com).
