

## REFERENCE

Hi! I'm Lorraine Gersitz, one of the friendly reference librarians here at Cerritos College.

I'd like to take this opportunity to welcome you to the library and tell you a little bit about all the exciting resources we have available to you right here in the library and also through the internet.

We have encyclopedias, books, magazines, newspapers, and online databases on every topic imaginable. By using these resources you'll find the kinds of sources your professors want you to use when writing a research paper or essay.

But one of our most valuable resources is our wonderful staff of professional librarians who will assist you when it comes time to write that research paper or essay for your class.

The librarians will get you started with your research and show you how to use all of our resources and databases and uncover some great information that's contained in them.

So please stop by the reference desk and ask a librarian! We look forward to helping you succeed at Cerritos!!
