

Research Guides

Welcome to the Cerritos College Library! My name is Lisa Nitsch I'm one of the part-time reference librarians here and what I'm going to introduce you to today is our Reference Research Rack. And we have general research guides that detail the policies of the library as well as many special topic guides in various classes like Astronomy and all sorts of topics here. We also have many more available online and if you need assistance finding them go right to the reference desk and ask us for our help. Thank you!
